

With regard to your conservations project, we would like to remind you that it is **your responsibility to select a contractor to do this work.** When they are ready to begin construction, please notify our office at 301 501-5886 so that a representative from our office can lay out the job and check the work during construction to insure that your conservation project meets the designed plans and is constructed according to specifications.

For your convenience listed below are contractors and/or suppliers who have expressed interest in providing services. **THIS IS NOT A PREFERRED LIST.** These contractors and/or suppliers should not be construed as having any special endorsements or standings in relation to Garrett Soil Conservation District.
