

GARRETT SOIL CONSERVATION DISTRICT

CORONAVIRUS - COVID-19

OFFICE UPDATE / MARCH 30, 2020

UPDATED: March 30, 2020

The office is still closed to the public but individuals are available for phone/email correspondence.

MDA and the District continue to tele-work.

Cover Crop participates: A MDA staff member will be in touch with you soon to provide contact information, so that you may report your kill down dates or delayed termination intention. Delayed termination (after May 1) could result in an additional \$15/acre. No field visits are permitted at this time - they may be able to provide maps and excel tables of what you reported in the fall.

No-Till Drill and Lime Spreader Rentals: At this time we hope to continue to coordinate the rentals. Please note that MDA and District staff are not in the office so we will have to coordinate by messages left at 301-501-5886. Please leave your name and a call back number. Carrie will be in touch.

NRCS is available for phone appointments and are still making field visits and will accept signed documents, outside of the office.

FSA is available by phone appointments only. Please call for service.

Contact information for Maryland Department of Agriculture and the District: please call their number (listed below) and leave a message, an email will be sent to them, or you may email them directly:

Roger.Kitzmillier@md.nacdn.net Phone: 301-501-5866
